

Sofia 2009

Vineyard Information

Marina was born of the fruit of our love, our joy of life, and the pleasure we taking in enjoying whatever life brings our way.

This is a special selection of different clones from the coolest sectors of the Casablanca Valley. Sofia reflects our taste in Pinot Noir, whether from Chile or elsewhere in the world. For us, it is a unique variety that is difficult to interpret, but when you get it right, you get absolutely wonderful wines. And Sofia reflects cheer, freshness, and elegance, the perfect blend for an enjoyable wine.

We wanted this blend to reflect the style of wines that we like to drink at home with our friends and good food.
